Author index

Allam, S.I.G., 93
Aniekwu, A.N., 3, 171
Arlani, A.G., 117
Bennett, J., 307
Bon R., 149
Chau, K.W., 209
Fazio, P., 195
Herzog, Jr, H.W., 247
Kangari, R., 161
Laufer, A., 339
Malaney, W.F., 35
Marsden, D.E., 71
McCaffer, R., 273
McFillen, J.M., 35
Moselhi, P., 195
Nam, C.H., 133
Ndekugri, E.I., 273
Ofori, G., 57
Okpala, D.C., 3, 171
Pain, J., 307
Potts, K.F., 25
Rakhra, A.S., 117
Revay, S., 195
Riggs, L.S., 161
Runeson, K.G., 49, 357
Schlottmann, A.M., 247
Sharpe, K., 225
Shtub, A., 261
Skitmore, R.M., 71
Taher, K.A.H., 295
Tan, W., 185
Tatum, C.B., 133
Theberge, P., 195
Touran, A., 295
Tucker, R.L., 339
Tucker, S.N., 13
Walker, A., 209
Wilson, O.D., 225

Construction Management and Economics, 1988, **6**, 379–382

Subject index

Bidding, tenders, estimates, 225
Bills of quantities, fast track, payments, milestones, 25
Building code regulation, framework, rationalization, 117
Building maintenance, building portfolio, simulation models, building replacement, 149
Building portfolio, simulation models, building replacement, building maintenance, 149
Building replacement, building maintenance, building portfolio, simulation models, 149
Building, price, index, forecasting, time series, 49
Business cycles, logit estimates, dynamic conditions, impact assessment, migration, 247

Construction, contractor, management, information, project, integration, 273
Construction, diversification, financial management, portfolio theory, management, risk analysis, 161
Construction costs, mathematical models, quantity surveying, cost planning, 13
Construction investment, spectral analysis, GNP, interest rate, 185
Construction management, planning and scheduling, project management, 93
Construction planning, degree of detail, forecasting, management, planning accuracy, planning horizon, planning specialist, 339
Constructed product, innovation, mass production, integration, construction technology, 133
Construction industry, estimating, tendering, 357
Construction technology, constructed product, innovation, mass production, integration, 133
Construction workers, motivation, performance, personnel, 35
Contractor, management, information, project, integration, construction, 273
Contractor's design, management, time, cost quality, 307
Contractual arrangement, structural variables, cost over-runs and delays, 3
Contractual arrangements, systematic variables, low productivity, wrong contractual applications, delay and cost over-run, 171
Cost over-runs and delays, contractual arrangements, structural variables, 3
Cost planning, construction costs, mathematical models, quantity surveying, 13
Cost quality, contractor's design, management, time, 307

Decision aids, multi-attribute analysis, utility, statistical analysis, discriminant analysis, post hoc hypotheses, procurement, 71
Degree of detail, forecasting, manager, planning accuracy, planning horizon, planning specialist, construction planning, 339
Delay and cost over-run, contractual arrangements, systematic variables, low productivity, wrong contractual applications, 171
Design management, fast-tracking, phased construction, professional construction management, 195

Development, infrastructure, middle-income, upgrade, downturn, export, 57
Discriminant analysis, post hoc hypotheses, procurement, decision aids, multi-attribute analysis, utility, statistical analysis, 71
Diversification, financial management, portfolio theory, management, risk analysis, construction, 161
Downturn, export, development, infrastructure, middle-income, upgrade, 57
Dynamic conditions, impact assessment, migration, business cycles, logit estimates, 247

Estimates, bidding, tenders, 225
Estimating, tendering, construction industry, 357
Export, development, infrastructure, middle-income upgrade, downturn, 57

Fast track, payments, milestones, bill of quantities, 25
Fast-tracking, phased construction, professional construction management, design management, 195
Financial management, portfolio theory, management, risk analysis, construction, diversification, 161
Forecasting, manager, planning accuracy, planning horizon, planning specialist, construction planning, degree of detail, 339
Forecasting, time series, building, price, index, 49
Framework, rationalization, building code regulation, 117

GNP, interest rate, construction investment, spectral analysis, 185

Hong Kong, input mix, output mix, tender price index, labour cost index, material cost index, profit margin, total factor productivity, 209

Impact assessment, migration, business cycles, logit estimates, dynamic conditions, 247
Index, forecasting, time series, building, price, 49
Information, project, integration, construction, contractor, management, 273
Infrastructure, middle-income, upgrade, downturn, export, development, 57
Innovation, mass production, integration, construction technology, constructed product, 133
Input mix, output mix, tender price index, labour cost index, material cost index, profit margin, total factor productivity, Hong Kong, 209
Integration, construction, contractor, management, information, project, 273
Integration, construction technology, construction product, innovation, mass production, 133
Interest rate, construction investment, spectral analysis, GNP, 185

Labour cost index, material cost index, profit margin, total factor productivity, Hong Kong, input mix, output mix, tender price index, 209
Logit estimates, dynamic conditions, impact assessment, migration, business cycles, 247
Low productivity, wrong contractual applications, delay and cost over-run, contractual arrangements, systematic variables, 171

Management, information, project integration, construction, contractor, 273
Management, risk analysis, construction, diversification, financial management, portfolio theory, 161
Management, time, cost quality, contractor's design, 307
Manager, planning accuracy, planning horizon, planning specialist, construction planning, degree of detail, forecasting, 339

Material management, project management, 261
Mass production, integration, construction technology, constructed product, innovation, 133
Material cost index, profit margin, total factor productivity, Hong Kong, input mix, output mix, tender price index, labour cost index, 209
Mathematical models, quantity surveying, cost planning, construction costs, 13
Microcomputer, sensitivity analysis, queuing theory, modelling, simulation, stochastic, production, scraper, pusher, 295
Middle-income, upgrade, downturn, export, development, infrastructure, 57
Migration, business cycles, logit estimates, dynamic conditions, impact assessment, 247
Modelling, simulation, stochastic, production, scraper, pusher, microcomputer, sensitivity analysis, queuing theory, 295
Milestones, bills of quantities, fast track, payments, 25
Motivation, performance, personnel, construction workers, 35
Multi-attribute analysis, utility, statistical analysis, discriminant analysis, post hoc hypotheses, procurement, decision aids, 71

Output mix, tender price index, labour cost index, material cost index, profit margin, total factor productivity, Hong Kong, input mix, 209

Payments, milestones, bills of quantities, fast track, 25
Performance, personnel construction workers, motivation, 35
Personnel, construction workers, motivation, performance, 35
Phased construction, professional construction management, design management, fast-tracking, 195
Planning accuracy, planning horizon, planning specialist, construction planning, degree of detail, forecasting, manager, 339
Planning and scheduling, project management, construction management, 93
Planning specialists, construction planning, degree of detail, forecasting, manager, planning accuracy, 339
Price, index, forecasting, time series, building, 49
Procurement, decision aids, multi-attribute analysis, utility, statistical analysis, discriminant analysis, post hoc hypotheses, 71
Production, scraper, pusher, microcomputer, sensitivity analysis, queuing theory, modelling, simulation, stochastic, 295
Professional construction management, design management, fast-tracking, phased construction, 195
Profit margin, total factor productivity, Hong Kong, input mix, output mix, tender price index, labour cost index, material cost index, 209
Project, integration, construction, contractor, management, information, 273
Project management, construction management, planning and scheduling, 93
Project management, material management, 261
Portfolio theory, management, risk analysis, construction, diversification, financial management, 161
Post hoc hypotheses, procurement, decision aids, multi-attribute analysis, utility, statistical analysis, discriminant analysis, 71
Pusher, microcomputer, sensitivity analysis, queuing theory, modelling, simulation, stochastic, production, scraper, 295

Quantity surveying, cost planning, construction costs, mathematical models, 13
Queuing theory, modelling, simulation, stochastic, production, scraper, pusher, microcomputer, sensitivity analysis, 295

Rationalization, building code regulation, framework, 117

Risk analysis, construction, diversification, financial management, portfolio theory, management, 161

Scraper, pusher, microcomputer, sensitivity analysis, queuing theory, modelling, simulation, stochastic, production, 295
Sensitivity analysis, queuing theory, modelling, simulation, stochastic, production, scraper, pusher, microcomputer, 295
Simulation, stochastic, production, scraper, pusher, microcomputer, sensitivity analysis, queuing theory, modelling, 295
Simulation models, building replacement, building maintenance, building portfolio, 149
Spectral analysis, GNP, interest rate, construction investment, 185
Statistical analysis, discriminant analysis, post hoc hypotheses, procurement, decision aids, multi-attribute analysis, utility, 71
Stochastic, production, scraper, pusher, microcomputer, sensitivity analysis, queuing theory, modelling, simulation, 295
Structural variable, cost over-runs and delays, contractual arrangements, 3
Systematic variables, low productivity, wrong contractual application, delay and cost over-run, contractual arrangements, 171

Tender price index, labour cost index, material cost index, profit margin, total productivity, Hong Kong, input mix, output mix, 209
Tenders, estimates, bidding, 225
Tendering, construction industry, estimating, 357
Time, cost quality, contractor's design, management, 307
Time series, building, price, index, forecasting, 49
Total factor productivity, Hong Kong, input mix, output mix, tender price index, labour cost index, material cost index, profit margin, 209

Upgrade, downturn, export, development, infrastructure, middle-income, 57
Utility, statistical analysis, discriminant analysis, post hoc hypotheses, procurement, decision aids, multi-attribute analysis, 71

Wrong contractual applications, delay and cost over-run, contractual arrangements, systematic variables, low productivity, 171
